

Your Partner for Success

ADDRESSING THE TELEPHONY NEEDS OF BUSINESS IN A MODERN WAY.

Visytel's primary focus is delivering telephony solutions that are customised to meet current business requirements

by using best practice development techniques. 25 years of working in the Telephony Service Provider Industry has enabled Visytel to bring a wealth of knowledge and experience to the table.

“A partnership that works! Visytel's solutions drive more business and their professional approach is refreshing and most of all they deliver.”

Currently Visytel has a complete solution running inside the UK company Spoke Interactive (www.spoke-interactive.com) handling around 10,000 calls per day reliably. The platform can scale up to over 1000 concurrent calls and is linked to the PSTN via BT Wholesale's Premium SIP Trunking. Visytel has formed an excellent working relationship with BT Agilemedia (www.mediaandbroadcast.bt.com).

- Carrier grade SIP based telephony platform
- BT Wholesale SIP compliant
- High density for TV based traffic
- Fast time-to-market for new services
- IVR solutions covered
- Softswitch
- ACD support with call queues
- Conferencing
- PCI Compliance for credit card processing
- Cloud based Speech to Text and TTS (*)
